THE WASHINGTON TOW PATH CLUB.-The Tow Path Club of Washington held a meeting last night, in that city, at which speeches were made by Mr. Elmund Barke, of this city, and others. Deck hand Whiteker in his speech

"The bitterness of the democracy of Virginia The bitterness of the democracy of Virginia rould not be estimated. They even questioned the right of the water to come into the State, and irequently threatened bodily harm Despite such action the watch persevered in their efforts, and worked hard for Bayly. The Third ward of Alexandria presented a scane of violence Tuesday which was a disgreece to a civilized country. A line of republican voters were driven back from the polls by the police, who were instigated by the polls by the police, who were instigated by the mayor, in the interest of a man who had not been a resident of Virginia for eleven years, and had not paid his capitation tax. When Congress assembled a protest would be filed against Barbour's admission, on the ground of fraud

the Election Over -The election over, the people of Alexandria have settled down to work, and everything and everybody to day were acquiet as a May teorning. Must of the Hancark flogs have been hauled down, and only the poles, so mensted by a rooster, perched upon a hand, too am to tell what might have been. The large Mahone readjaster bancer, that, but a few days ego floated so proudly over King stret, has been to-bed never again to be throwe to the tree z , for Virginia has freed herself of a the man power. The influence of Gen. Mahone, by reason of his false predictions, has been broken, and there will be no more Mahone re adjusters. The contest next fall will be netween democratic readjusters and republicars. It there were any bad feelings engendered by the const, they have been obliterated, and pleasant relations exist between the members of the three polarical parties. The democrats have pacepted the situation with as much grane as

He immediacly appeared at police headquarters, and were cut a warrant against the woman chargwas her with larceor. She was arrested in Washington pertuday by Detective Cromes, and brought to this city last night. This morning the woman was discharged as there was co evidence to sustain the charge, and O'Dell reures to Penesylvania thirty eight dollars wiser dan when he left.

AN OUTSPOKEN DEMCCRAT.-A promisent d.m.c.at of this city, in closing a business letter to a preminent republican in New York writes

'It is unusual to write of policies in an offidis c a mu ipation of this kind; but I desire to tay that, in my opinion, the late election is the has for retall yests-at least, in which Southern de woerste will follow the lead of the democracy of the North. New York could have easily desied Hancock, but she threw the election sway, and assisted in the election of the repuben cardidate. Lat it be so; we are content. At the next election our people will either tuo a Saubero man, with the certainty of defeat, er vote for the republican ticket, and therety des roy our fairi ful (?) allies of the great Cate of New York."

FALLING FROM A BALOON.-A dispatch from Paris says a frightful and unprecedented balloon accident occured recently at Courbevoic. near Paris. A large crowl had assembled to witness the novel and perilous ascent of a gymnast called Augusto Navarr, who, with inexplicable foolhardiness, had volusteered to perform a number of athletic feats on a trapezs suspended from a Montgolfiere balloon named the Vidouvillaise. Rejecting the advice of by-standers, Navarre refused to allow himself to be fied to the traptze. There was no car attached to the balloon. At about 5 o'clock the Vidou-villaise was let loose from its mooring and rose mi i stically in the sir. Navarre, hanging on to the trapez, appeared quite confident and re peatedly saluted the spectators. When, however, the balloon had reached a hight of nearly 1 000 yards the crowd was hornified to see him suddenly let go the tar acd tall. The tragic deceat was warched in breathless expitement. At last the body resched the ground, striking with such force that it made a hole in the earth two feet deep and rebounded four yards. Is was crushed and mangled beyond recognition. Meanwhile the balloon, freed from its human ballast, shot up with lightning speed and soon disappeared from sight. Late in the evening it burst and fell at Menilmontant, much to the Parisian quarter,

MAHONE'S IMPORTANCE -The Philadelphia Record says:

"Senater Mahono, of Virginia, is hardly likely to be tun after to so great an extent by the pelicieians of both parties when he cext visits Philadelphia as he was on the eccasion of his recent call. What gave him importance was not so much the doubt as to which side he would so with in the Senate-although that consideration had its due weightas the supposition, nowhere strictsly questioned outside of his own State, that the electoral and osuld be out by him wherever he might decide it would do most good. This no tion, for which there was really no foundation and which had no support in any authentic declaration of General Mahone himself, was pratty theroughly shown to be fallacious by the result in Virginia on Tuesday, when the read-justers fell far behind the funders at the poils and made up mark whatever except in Served Him Right. -A colored made named helping to secure the defeat of a democratic lease O'Det, from Picsburg, Pa, came here Congressmen or two."

TO-DAY'S TELEGRAPH NEWS

The Solidity of the South.

MONTGOMERY, ALA., Nov. 5 .- The Montgomery Advertiser says; "The lawlessness and oppression, the profligeo, and plunder of the republican party compelled the solidity of the South. To that solidity more than ever before she must remain steadfast and unmovable. Under our benign home rule our people have prospered to a degree that has astonished our friends and confused our enemies. There need not be and will not be any 'let up' in the won derful progress of the South under the tem regime whatever it may be which the republican party so k to inaugurate: it cannot materially affect the South. It will indeed prove a blessing to the extent that it will induce great self reliance, greater energy and wiser efforts in developing the worderful wealth and unlimited resources which a kind Providence has bestowed upon the suppy South. The sup will still shine, the gentle showers will fall, seed time and har vest will still bring their blessings and our great

staple must continue to be a power in the commercial world, while our coal and iron and other minerals will jild a wealth of which the world does not dream. Lat the solid Southsolid always for home rule and honest govern-ment, now give its greatest vigilance and wisest counsels, not to national politics or to the conflicts and passions of national parties, but to the building up and advancing of our educational, moral material interests. Herein the South is and must continue to be solid-solid as her glori ous mountains and strong and increasing as the flow of her own broad and beautiful streams. It may be that Garfield will prove a very different man from what his past record indicates as the first officer of our great republic. With the responsibility of the government of fifty mil-

lions of people pressing upon him he may pos-sibly prove a wise and beneficent ruler." Railroad Accidents. JERSEY CITY. Nov. 5 .- At 7 o'clock this morning a freight train on the New York, Lake Krie and Weston R. R. had taken a switch at Penn Horn Creek to permit a passenger train of the N. Y. and New Jersey, a branch of the Krie, road, to pass into the tunnel. It is alleged how-ever that the switchman had omitted to close the switch and consequently when the passenger train came it crashed into the caboose of the freight train instantly killing David Quacken-bush the engineer of the passenger train, and the freight train conductor, Garrett Voorhis The fireman of the passenger train received fatal internal injuries, having also his right leg crushed. As far as could be learned no passenger was burt. The authorities thus far have failed to find Clark Bogert, the switchman, who

promptly fled. CINCINATI, Nov. 5 -Two freight trains ran together on the Marietta and Cincinnati R. R. near Moonville, on the castern end of the road yesterday. Engineer Frank Lonshead and fireman Chas Erick were killed, and six of the crew wounded, but none fataly.
